Hi David,

Thank you for participating on the first Modeling Subgroup meeting for the North Pole Refinery project. I am very glad you have some time to assist us with some technical expertise on this part of the project. Ann Farris (the former project manager for the project) and I would like to brief you on the project sometime before next week's scheduled meeting. We are both available Thursday morning (AK time). Would you have some time on Thursday to talk?

In the meantime, below is a link to the project website:

Thank you again for agreeing to participate on this.

Sincerely,
Tamara
